HEFFRON

PANAMA RUM

The roots of rum Heffron go back to the distillery in Las Cabras de Pesé in Panama, the partner distillery of the Czech Green Tree Distillery, which is the oldest distillery in Europe.

The spiritual father of Heffron is master blender Francisco Fernández, also known as "Don Pancho". He has more than 50 years of experience in rum production. He began his career in Cuba in the 1960s, where as a director of the beverage industry he contributed to improvements that are used as standards today. Don Pancho has lived in Panama since the 1990s, where he produces the best rums in the world.

PRODUCTION PROCESS

RAW MATERIAL

Molasses from high quality sugar cane

FERMENTATION

Takes place at a controlled temperature of 32 °C and pH 4.0 - 4.5

DISTILLATION

At precisely controlled temperatures in a continuous distillation column

MATURATION

Each drop matures for the declared time in the barrels, the solera system is not used

TRANSPORT

The rum travels in cask strength via ships to the Green Tree Distillery

BOTTLING

Rum Heffron is bottled in the oldest European distillery in Prostějov, Czech Republic

HEFFRON 5YO RUM BOURBON CASK

- Each drop of the rum matures for 5 years
- Matures in carefully selected barrels after American bourbon. These give it a completely unique character
- The taste is drier with strong woody tones and hints of tropical fruit

HEFFRON 10YO RUM

- Each drop of the rum matures for 10 years
- Matures in carefully selected barrels after sherry, bourbon, and cognac
- Their blend is a masterpiece that has a perfectly balanced palette of flavor tones and aromas
